

Hitech 6 layers flex-rigid printed circuit board, PCB manufacturer in China

Flex-rigid printed circuit board for electronics is crafted using superior quality FR4 Tg170+PI material for increased efficiency in wiring. Email Cynthia<sales11@hitechpcb.com> if you are looking for remarkable flexibility 6 layer flex-rigid printed circuit board.

Technical Parameters

- Layers: 6 layers Rigid-flex Printed circuit board
- Material: FR4 TG170 + PI
- Thickness: 3.00mm+/-10%
- Surface treatment: immersion gold
- Panel size: 300*50mm
- Specialty: L3-4 (flexible board), L1-2,L5-6 (rigid board)
- Solder mask: Green + Coverlay
- Legend: White
