

Book Launch: The Heart of Design

Book Launch Highlight: The Heart of Design at Kinokuniya, Abu Dhabi

We proudly launched [The Heart of Design by Peter Gould](#), a visionary work distilled from over a decade of thought, reflection, and craft. More than just a book launch, this event celebrated conscious creativity, meaningful community, and the transformative power of purposeful publishing in the UAE.

A Book Aligned with Our Mission:

At [Uhibbook Publishing](#), our core purpose is to amplify ideas that foster positive social impact. Every book we champion is an opportunity to shift the collective consciousness, to offer readers more than just words on a page. Peter Gould's new release, *The Heart of Design*, embodies these values perfectly. Its message goes far beyond design; it's about aligning faith and purpose with our work and remembering that every thoughtful act, conversation, and creation has ripple effects far beyond ourselves.

The Heart of Design: More Than A Book

This project is the result of years of deep inquiry:

- How do we bring sincerity and spiritual intention to our craft?
- How do we design from the inside out, ensuring each detail from typography and color palette to practical tools and guidance is rooted in mindful purpose?

Every page of *The Heart of Design* is a testament to this conscious approach. The careful design isn't just aesthetic, it's a meaningful part of the message, inspiring readers to reflect on their own purpose and contributions to the world.

A Memorable Event at Kinokuniya Abu Dhabi

We were thrilled to host the launch at Kinokuniya UAE, with immense gratitude to *our partners at Bookland* and [the team](#) who brought the gathering to life. The event sparkled with warmth and

intellectual curiosity, highlighted by a rich, heartfelt dialogue between [Peter Gould](#) and [Rehan Khan](#), historian, storyteller, and author of eight books including *Tomb of Empires*.

Their conversation brought to light what it means to be creative with intent and integrity, especially in a time when the world is facing so many challenges. As the evening unfolded, we were reminded that even small efforts, when rooted in presence and sincerity, contribute to the greater good.

Why This Book and This Moment Matters

In a world where injustice and pain can feel overwhelming, *The Heart of Design* invites us to ground our work in meaning and mindfulness. It's a call to action for everyone involved in book publishing in Dubai, Abu Dhabi, and across the UAE: every project, every story, and every act of creativity matters.

Power structures, after all, are built by individuals. Each book published and each story shared through [Uhibbook Publishing](#) is an invitation to shift mindsets, spark new ideas, and help build a more conscious world.
